**THE INDEPENDENT
PURIFICATION CO-AUDIT COURSE**

NAME: _____ ORG: _____

POST/OCCUPATION: _____

DATE STARTED: _____ DATE COMPLETED: _____

PREREQUISITES: None.

MATERIALS: Book: Clear Body Clear Mind
Forms: Purification RD Forms Pack

LENGTH OF COURSE: One week full time (eight hours per day, five days per week).

PRODUCT: An individual who has the data necessary to complete the Purification Program to full End Phenomena.

SEQUENCE: This checksheet is studied once through in the sequence listed on the checksheet.

CERTIFICATE: Upon successful completion of this course, the student may be awarded the certificate of INDEPENDENT PURIFICATION CO-AUDIT COURSE completion.

IMPORTANT NOTE: In doing this course, be very certain you never go past a word you do not fully understand.

The only reason a person gives up a study or becomes confused or unable to learn is because he or she has gone past a word that was not understood.

The confusion or inability to grasp or learn comes AFTER a word that the person did not have defined and understood.

Have you ever had the experience of coming to the end of a page and realizing you didn't know what you had read? Well, somewhere earlier on that page you went past a word that you had no definition for or an incorrect definition for.

Here's an example. "It was found that when the crepuscule arrived the children were quieter and when it was not present they were much livelier." You see what happens. You think you don't understand the whole idea, but the inability to understand came entirely from the one word you could not define, *crepuscule*, which means twilight or darkness.

It may not only be the new and unusual words that you will have to look up. Some commonly used words can often be misdefined and so cause confusion.

This datum about not going past an undefined word is the most important fact in the whole subject of study. Every subject you have taken up and abandoned had it's words which you failed to get defined.

Therefore, in studying the materials of your course, be very, very certain you never go past a word you do not fully understand. If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood.

Don't go any further, but go back to BEFORE you got into trouble, find the misunderstood word and get it defined.

At several points of the checksheet you are asked to do a demonstration, or DEMO, of a point of the material you have read. A demo is done using bits of things such as paper clips, pen tops, coins, small blocks of wood, etc. For example, if you are asked to demonstrate how to fly a kite, you might show it like this: "This lighter represents the kite, and you tie a tail to it, which is this paper clip. Then you attach string to the kite, which is this rubber band. Now, the wind, shown by this pen, is coming from this direction and the person (indicated with an eraser), holds the kite and runs in the direction of the wind. When the wind catches the kite it lifts it in the air and you let out the string to fly the kite higher and higher."

Demonstrations help a student work out how things operate, are assembled, etc.

If you run into trouble, get help from the Supervisor.
